

Siguri Gold IPO Investor Update

Siguri Gold Corporation (proposed ASX code **SGD**, “**Siguri Gold**” or the “**Company**”) advises that it has lodged a Third Supplementary Prospectus dated 30 September 2024 for its Initial Public Offering (IPO), due to a delay in the granting of certain permits for its Siguri Gold Project in Guinea.

The primary objective of the supplementary prospectus is to extend the offer period as a result of the delay in the granting of the permits, which is a condition of the Company’s listing on the ASX.

As detailed in the Third Supplementary Prospectus, the Company has received indicative commitments from investors, together with formal applications for CHESS Depository Interests (CDIs), exceeding the Minimum Subscription.

Whilst the Company is disappointed by the delay, it acknowledges that it is an unintended consequence of the Guinean Ministry of Mines’ efforts to enhance its mining title system, including upgrades to the local cadastre and associated IT systems. The Company commends the Ministry of Mines for these initiatives, which are in the best interests of investors.

Given the strong demand, Siguri Gold intends to close the offer immediately upon the receipt of the permits.

The Third Supplementary Prospectus is available to view on the [Siguri Gold website](#).
